Simply plug and GO!

Mileage made easy

Easily switch between business and private mileage. Quickly create accurate reports. Only pay for business miles. Reduce private vehicle use.

Totally portable and as flexible as your mobile workforce

Get the most from your grey fleet and subcontractors. Manage every driver, every vehicle, every time.

So much more than Sat Nav

Save money, time and fuel

Cut admin and get more jobs done. Send orders and destinations directly to the GO 9000. Avoid delays at any time of day with intelligent routing.

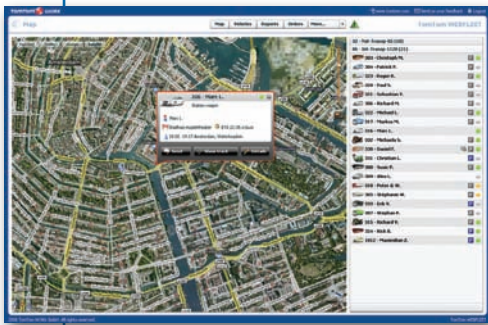

Keep drivers safe and stress free

Text to speech and hands free technology. TomTom Help Me! emergency menu. Award-winning navigation.

GO 9000 + WEBFLEET

Everything you need to manage your vehicles, drivers and orders online. See page 2 for more...

TomTom WEBFLEET

Stay connected even when on-site

GO 9000 is always connected to the office, in the vehicle and the job site ensuring accurate and up-to-date information on positioning, workflow and availability.

Drivers and dispatchers can communicate via text messages.

Manage last-minute requests, over-running jobs and challenging traffic without compromising customer service.

Stay in control

WEBFLEET is the clever way to keep control of costs, increase productivity and give even better customer service.

And with HD Traffic™ available both on the GO 9000 and WEBFLEET you can assure customers of exact arrival times.

Stay informed

WEBFLEET Dashboard displays the KPIs you want in clear charts at your fingertips. Keep an eye on the information you need, fuel costs, trends in business versus private mileage. Whatever you want, whenever you want it.

LIVE services ready*

TomTom HD Traffic™ – Up-to-the minute traffic speed, incident reports and alternative route proposals.

TomTom Fuel prices – Get directions to the cheapest fuel station around and save money on your fuel costs.

TomTom Local Search with Google – Tap into the latest local Google listings from your TomTom GO 9000 to locate anything from repair shops to restaurants no matter where you are.

Safety Alerts – Your TomTom GO 9000 receives advanced warnings from Road Angel, including fixed and mobile safety cameras, black spots and more, to get your drivers to their destination safely.

TomTom Weather – Be prepared for changing weather conditions. Check the latest local weather forecasts directly on your GO 9000.

Proven to save time and money

Increase your competitiveness by reducing operational costs.

Save up to 40% on communications¹. Reduce journey times by 14% with IQ Routes and HD Traffic².
